# IMAGE SHOWERS

At Image, we have built our brand around total commitment to elegant and innovative design, product quality, reliability and the ultimate in customer satisfaction.

We don't just make shower enclosures. We create luxurious yet practical showering solutions, helping you to choose the perfect design to complement your bathroom interiors. Using only the best materials designed around lifetime performance guarantees, we are totally committed to product excellence in design and reliability.

The i2 and i4 ranges have been created by Image's team of engineers and designers in order to offer truly affordable enclosures. These shower doors are styled to complement both traditional and contemporary settings, whilst being available in a range of styles and sizes to suit most installations.

The ranges do not compromise on the quality you would expect from Image and are built to withstand the most vigorous conditions, whilst enjoying the benefit of our lifetime guarantee.

## EASY CLEAN GLASS

As part of our commitment to excellent service, we include our iSHIELD Easy Clean protective coating on our products.

### Without iSHIELD

Easy Clean protective coating, soap and water residue can bond to the surface of the glass resulting in a build up of grime

### With iSHIELD

The iShield intelligent surface helps prevent the build up of limescale and soap deposits ensuring that water droplets simply roll away from the surface.

## LIFETIME PERFORMANCE GUARANTEE

At Image, we make absolutely certain that every individual product detail and feature is designed around quality, performance, reliability and solidity. Our insistence on excellence gives us the confidence to offer a lifetime guarantee across our entire range.

### Registering your Image product

To register your Image product and activate your Lifetime Guarantee, please visit our website at

# Why choose i2 (Solo) & i4 (Ruby) Enclosures

enclosures

enclosures

## 6MM GLASS

All Image i2 and i4 enclosures and doors utilise toughened 6mm safety glass to EN 12150-1 Class A standard for optimum user safety and performance.

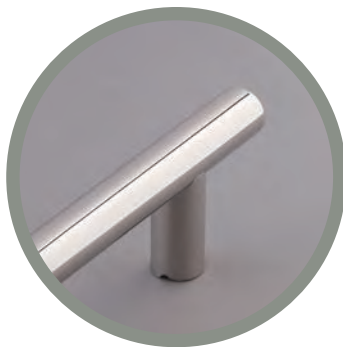

## QUICK RELEASE iROLLER SYSTEM

The iROLLER, incorporating our quick release system ensures ease of cleaning throughout the range.

## HEIGHT

With the focus on ease of installation i2 and i4 enclosures and doors stand 1850mm high and create a modern look.

## CHROME HANDLES

Image i2 and i4 enclosures and doors are designed around elegance and simplicity

## LIFETIME GUARANTEE

Every individual detail and feature on Image products is designed around quality, performance, reliability and solidity – giving us the confidence to offer a lifetime guarantee across our entire range.

## EN & ISO QUALITY STANDARDS

We never compromise. All Image enclosures and doors are produced in accordance with ISO 9001 and EN 14428 quality and performance standards.

## MADE IN IRELAND

Manufactured in Kilkenny. Distributed daily in our own vehicles, to all our retailers countrywide.

# i4 enclosures

The i4 range has been created by Image's team of engineers and designers in order to offer truly affordable enclosures.

These shower doors are styled to complement both traditional and contemporary settings, whilst being available in a range of styles and sizes to suit most installations.

# Building Boards

wedi building boards form the basis for all system solutions. They are 100 % waterproof, extremely robust and available in numerous designs. They can be cut to the desired sizes and shapes without any loss of function or forfeiture of the guarantee and offer thermal insulation and waterproofing in one in the process. Their versatility is unique. Whether it's complete bathrooms, individual washbasins or customised individual items – the wedi building boards make anything possible

Price on application

# perform<sup>®</sup> panel

Panel Boards work beautifully for bathrooms and many other applications, whatever the interior design style. From warm earth tones to striking urban design, the exclusive range includes a full spectrum of colour and texture.

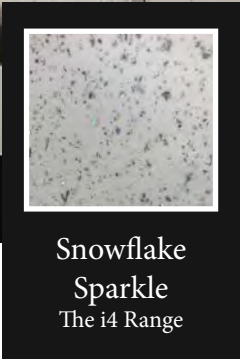

With easy installation, no grouting and a unique high-performance fitting system, the wet wall panels provide a seamless waterproof wall in a fraction of the time it would take to tile.

Time-critical projects can significantly benefit from the Panel Boards. Social housing, modular buildings, student accommodation and nursing homes are just some of the areas where using Perform Panel pays off. Perform Panel is perfect for hotels, gyms, showrooms, restaurants, shops and various other environments.

Here at Image Showers, we offer panel boards and a Nu-Lock panel board system. Nu-Lock is a tongue and groove click system providing a subtle, seamless and watertight finish and is an alternative to installing two panels with a straight joint profile. Using the latest technology, Nu-Lock provides an easy to install, watertight and cost effective solution.

# Information & Maintenance

## PRODUCT

All products are manufactured in accordance with ISO 9001 and EN 14428 and utilise toughened safety glass to EN12150-1 class A standard.

Aluminium sections are extruded to BS 1474 from alloys complying with BS 6463 and coated to BS 6464.

Doors and enclosures have been tested in accordance with EN 14428 and are suitable for use with modern power showers.

The position of all shower valves in the brochure are for illustrative purposes only.

## CE AND EN INFORMATION

The CE marking on The Company's products is a declaration that the product complies with the essential requirements of the European health, safety and environmental protection legislation.

The CE marking on a product indicates to government officials that the product may be legally placed on the market in their country. This ensures the free movement of the product within EFTA and the European Union single market and permits the withdrawal of the non conforming products by customs and enforcement authorities.

The European Union's "new approach directives" are mandatory on all member countries to enact through national legislation. This legislation requires manufacturers to display a CE marking on their product, packaging and accompanying literature. Where a new approach directive is in force, it is (with few exceptions) an offence to place a product on the market without a CE marking.

Often consumers will consider CE marking on a product as an indication of conformance to laid down minimum standards and therefore, a minimum level of safety which other products may lack. CE marking is for many consumers a "Symbol of Safety"

## DELIVERIES

Deliveries should be inspected immediately after receipt and any discrepancies should be notified within 7 days. Notifications received after this period will not be accepted.

Goods supplied are subject to carriage charge\*ask The company for details\*. Lead time direct to a reseller is 3 working days.

24 hour delivery is available subject to a carriage charge. Home delivery is also available subject to a carriage charge.

## CLEANING

It is important to clean your shower door and tray after every use. Wipe down all the glass and metal parts with a soft cloth.

Do not allow lime scale to build up in hard water areas.

Ensure that any residual water on the glass is removed after every use.

Clean the glass regularly with soapy water.

Do not use any abrasive products on any surfaces.

Install enclosures in a well ventilated area.

Always read the instructions on the packaging. Bathroom products are vulnerable to acid attack and some strong household cleaners including strong disinfectants, denture cleaners, hair dyes, wine making chemicals and photographic chemicals may contain acid. These materials may have a varying effect on the surface, from black spots/streaks (which cannot be removed) to pitting the surface. Contact with these materials should be avoided.

## SHOWER ENCLOSURE ADJUSTMENT

This is the min and max adjustment of the actual enclosure. These are the adjustment dimensions of the actual door excluding the tray. Therefore, these are the dimensions to follow when installing an enclosure in a wet room application without a tray.

The guide below may be helpful in taking measurements to determine the shower door or enclosure size required. Dimensions given in this publication are in millimetres, are approximate and may vary with adjustment. They are subject to change without notice.

Please note that when a tray is fitted, it is essential that the tray is level before any doors or enclosures are fitted. Uneven trays may lead to leakages and would invalidate our guarantee.

## BATH SCREEN INFORMATION

Bath Screens are not designed to fit on baths with stepped fronts, roll top rims, or integral soap dishes.

Fitting of Screens on baths which have raised head rests or shapes, is not recommended. There must be no items causing obstruction with the seal and bath, as any of the above may cause leaks.

When choosing your Bath Screen, please ensure that if your bath has bath handles, that they do not interfere with the bath rim area where your Screen will be placed.

When choosing an in-swing or folding Bath Screen please ensure that your swing area is not interfering with any brassware or internal shower features. Similarly, when choosing an out-swing, please ensure that the out-swing area is free from any obstructions.

## IMPORTANT SHOWER TRAY INFORMATION

Although shower door and enclosure sizes are related to tray sizes, it is important to note that most shower trays are tiled down to the rim, often over an "up-stand". The finished installation space may be less than the nominal tray size. Shower units are made to suit this remaining space.

## TRAY FINISH MIN – MAX

The tray finish applies when fitting a door and a tray. These are the minimum and maximum dimensions that a shower door or enclosure will fit using standard wall profiles.

### TRAY FINISH

To find the correct tray finish dimension:

In a recess: measure from the finished, tiled wall to the opposite finished, tiled wall.

In a corner: measure from the finished, tiled wall to the edge of the tray.

Note: If the wall/walls are leaning in, this will further reduce your tray finish.

Please ensure that the size of shower tray is as per your order before installation.

You must inspect the product thoroughly before installation. Fitting the product is acceptance of quality.

Tray heights may vary due to manufacturing tolerances.

Where your shower tray is not fully enclosed, please ensure that your panel is at least  $\frac{3}{4}$  of the length of your tray size.

Please ensure that the shower head is not positioned over the waste as this may restrict flow rate.

## RETURNS

No return of goods will be accepted by The Company without prior authorisation and compliance with our returns procedure.

In the event that the customer returns any goods which are not defective, such goods will be accepted by The Company only if they are returned to The Company in an undamaged, resalable condition, which requires that the goods are unused and contained within their original, unopened and undamaged packaging.

In the event that the customer wishes to return non-defective goods to The Company following the expiry of the 21 day period, The Company will have absolute sole discretion as to whether it shall offer a refund to the customer in respect of such goods.

In relation to any returns made, The Company will deduct 40% of the price paid for the relevant goods and The Company will deduct a discretionary restocking fee (which may exceed 40% of the price paid for the relevant goods) plus the cost of carriage, from the sums refunded to the customer, in order to cover The Company's administration and restocking costs.

The company will not accept any return of (or issue any refund or credit in respect of) non-faulty goods more than 30 days following the delivery date.

If a return of goods has been agreed by The Company, it will arrange a collection date with its courier. If The Company or its courier is unable to collect the goods on the date proposed by the courier due to any act or omission by the customer, then an administration fee will be payable by the customer (which The Company may deduct from any sums refunded to the customer).

## GENERAL

All products are supplied complete with full installation instructions and the necessary fixings.

Check with your dealer for accurate matching of material samples. Product descriptions do not imply the use of precious or valuable materials.

Our policy of reviewing product design and development on a regular basis means The Company reserve the right to change product specifications and prices without notice.

Glass shattering and parts subject to wear are not covered by the lifetime guarantee.

Trays shown in this catalogue are for illustrative purposes only.

Images are for illustrative purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all shower heads in the brochure is for illustrative purposes only. All descriptions, specifications and particulars contained in this brochure are intended merely to represent a general idea of the products described herein and none of these form part of any contract to give rise to any independent or collateral liability upon The Company.

Prices are correct at the time of print with the rate of VAT which applies at the time. Due to circumstances beyond our control, prices may be altered including changes to the rate of VAT.

Due to our policy of continuous improvement, we reserve the right to amend prices, specifications and designs without prior notice. Images are for illustrative purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. All descriptions, specifications and particulars contained in this brochure are intended merely to represent a general idea of the products described herein and none of these form part of any contract to give rise to any independent or collateral liability upon the company.

## LIABILITY

In the event of any breach of The Company's obligations, the remedies of the customer will be limited through damages.

Except as set out in these conditions, all warranties, conditions and other terms implied by law (whether by statute, common law or otherwise), are to the fullest extent permitted by the law, excluded from the contract.

The Company's maximum aggregate liability arising out of or in connection with a contract, whether in a contract, tort, misrepresentation under statute or otherwise, howsoever caused including any liability under an indemnity contained in the contract and/or arising from a breach of, or a failure to perform or defect or delay in performance of, any of The Company's obligations under the contract and/or any defect in any of the goods supplied under the contract and/or any use made or resale of any such goods by the customer or of any product incorporating any of such goods shall be limited to the aggregate price paid or payable under the contract.

The company shall not have any liability to the customer for any loss of profit (direct or indirect); loss of revenue, loss of production or loss of business (in each case whether direct or indirect); loss of goodwill, loss of reputation or loss of opportunity (in each case whether direct or indirect); loss of anticipated saving or loss of margin (whether direct or indirect); liability of the customer to third parties (whether direct or indirect); consequential or special loss arising out of or in connection with the contract, whether in contract, tort or misrepresentation under the statute or otherwise, howsoever caused including by negligence and/or arising from a breach of, or a failure to perform or detect or delay in performance of, any of The Company's obligations under the contract.

Nothing in the contract shall operate to exclude or restrict The Company's liability (if any) to the customer for breach of its obligations arising under section 12 of the Sale of Goods Act 1979; for breach of its obligations arising under section 2 of the Supply of Goods and Services Act 1982; for death or personal injury resulting from its negligence; for its fraud or fraudulent misrepresentation; or for any matter for which it is not permitted by the law to exclude or limit, or to attempt to exclude or limit, its liability.
